INFORMATION DISCLOSURE STATEMENT

Sir:

In compliance with the duty of disclosure under 37 C.F.R. § 1.56 and in accordance with the practice under 37 C.F.R. §§ 1.97 and 1.98, the Examiner's attention is directed to the documents listed on the enclosed Form PTO-1449. Copies of the listed documents are also enclosed.

Japanese Laid-Open Patent Application No. 11-84118 corresponds to U.S. Patent No. 6,624,943 and U.S. Patent Application Publication No. 2001/0036012, both of which are also enclosed. The concise explanation of the relevance of this non-English language document is found in the attached English Abstract thereof. In addition, enclosed is a copy of a Japanese

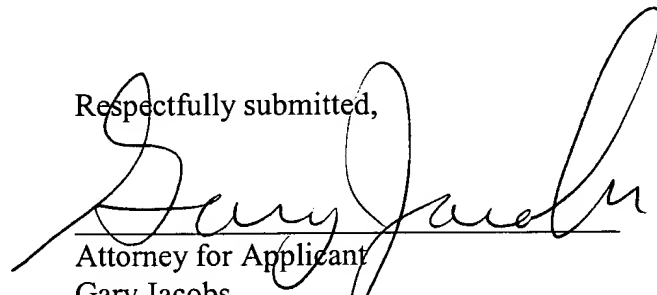

Office Action, issued in a Japanese counterpart application, that cites Japanese Laid-Open Patent Application No. 11-84118. Below is a translation of the part of that Japanese Office Action providing the second reason that Claim 14 is rejected in the Japanese Application.

With regard to Claim 14, in reference 1 (No. 11-84118), diffraction grating is formed on a plane. However, since it is well known to form diffraction grating on a curved surface, it is easy for a person who has skill in the art to make the present invention in claim 14 by arranging diffraction grating in the reference 1 on a curved surface.

It is respectfully requested that the above information be considered by the Examiner and that a copy of the enclosed Form PTO-1449 be returned indicating that such information has been considered.

Applicant's undersigned attorney may be reached in our Washington D.C. office by telephone at (202) 530-1010. All correspondence should continue to be directed to our address given below.

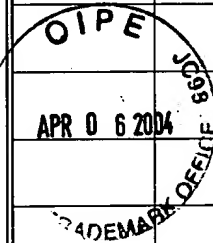

Respectfully submitted,

Attorney for Applicant  
Gary Jacobs
